

# The Year Round Protection Plan – Plus Termites

## Subterranean Termite Activity Zones of The United States

- None to Slight
- Slight to Moderate
- Moderate to Heavy
- Very Heavy

- **Termites cause over \$5 billion of property damage each year in the US alone.**
- **Homeowners insurance does not cover termite damage. YRPP Plus provides up to \$10,000\* in termite damage repairs if necessary.**
- **YRPP Plus protects your home and strengthens its value.**

\* Some limitations may apply.

## Complete pest protection for your home

When we ask homeowners which pests concern them most, the answer is usually termites. Termites are destructive and secretive, so their presence is often discovered after the damage is done. Presto-X developed the Year Round Protection Plan Plus to offer complete, ongoing pest protection for your home, including termites and the damage they can cause.

### How does YRPP Plus work

The program is simple. We routinely monitor and provide service for protection against 36 of the most common household pests including ants, stinging insects and rodents. The "Plus" includes the installation of Sentricon, an award winning system of termite monitoring/baiting stations, along the perimeter of your home. These stations, installed during your first YRPP Plus service, monitor potential termite activity and protect your home from termites. On each subsequent visit, your Technician will monitor these stations. If detected, your expert Technician will determine what actions are needed to deter termite activity outside your home.

## Coverage against termite damage

If termite activity is discovered in the structure while the YRPP Plus service program is in effect, Presto-X will pay up to \$10,000\* for labor and materials to repair damage.

## Designed with children and pets in mind

Sentricon received the Presidential Green Chemistry Award from the EPA for its low impact on the environment.

Sentricon provides a non-disruptive way to monitor and treat your home against termites. The system is used and trusted at more than 2 million properties, including national treasures such as the White House, Statue of Liberty, the Alamo and Independence Hall.

## Peace of mind

Presto-X's YRPP Plus offers reassurance that your home – your single largest investment – has complete protection.
